SKILLS

Business Analysis: Requirement Elicitation & Documentation (PRD, SRS), User Story Mapping, Use Case Modeling, BPMN, Stakeholder Communication

Technical Knowledge: RESTful APIs, Database Modeling (ERD), Basic SQL, System Design Fundamentals

Tools: Jira, Figma (Wireframing & Prototyping), Postman (API Testing), Git/GitHub, VSCode

Languages: English (TOEIC 865)

PROJECTS

FinTracker – Personal Finance Management App | *Flutter, Dart, Riverpod, SQLite* Sep 2025 - Nov 2025

- Translated business needs into **PRD** and **SRS** for development.
- Defined **12+ user stories** and **3 key user flows** for a personal finance tracking system.
- Owned the release process and successfully launched the application on **Google Play**.
- Project Links:** [Google Play Store](#) | [Case Study - Product Planning](#)

Interprovincial Car Booking Platform (Real Client Project) | *Next.js, Supabase, Vercel* Aug 2025

- Collaborated with a real client to define an **O2O booking model** using Zalo instead of in-system transactions.
- Modeled business workflows using **BPMN** and defined key **use case** for booking interaction.
- Authored **SRS** including **5 user stories**, and **20+ acceptance criteria** aligned with real system behavior.
- Designed **ERD** and implemented data integrity logic.
- Project Links:** [Explore Platform](#) | [Case Study - Business Workflow](#)

Internal LMS for Automotive Department – HCMUTE | *Next.js, Supabase, Vercel* Oct 2025 - Dec 2025

- Analyzed and defined requirements for an **internal multi-role LMS** with **3 user roles** (students, lecturers, administrators).
- Produced key system design artifacts including **SRS, ERD, BPMN**, and **3 Use Case Diagrams**.
- Reached **100+ registered users** within the department, validating core learning and assessment workflows.
- Aligned product artifacts with implementation stack: Next.js, TypeScript, Supabase, Tailwind CSS.
- Project Links:** [Case Study - System Design](#)

EXPERIENCE

Mobifone Authorized Dealer

2023 – 2024

Customer Consultant (Part-time)

- * Identified customer needs and pain points to recommend suitable telecom solutions.
- * Analyzed customer behavior and proposed tailored service packages based on usage patterns.
- * Communicated with diverse customers to clarify requirements and improve service alignment.

COURSEWORK

Google Data Analytics Professional Certificate (Coursework) – Coursera

Topics: Data Cleaning, Data Ethics, Data Visualization, SQL Basics

SQL for Data Analysis (Coursework) – Coursera

Topics: SQL Queries, Joins, Aggregations, Data Filtering

EDUCATION

Sai Gon University

B.S. Software Engineering

Expected Graduation: 2027

Ho Chi Minh City, Vietnam
